

Digi Pack Production Meeting Agenda

Shoot Title:	Glass Bottles	
Date of Meeting:	1st December 2015	
Date of Shoot:	3rd December 2015	
Location(s) and times of Shoots:	Black photography studio at school 3:30	
Outline of what we want to achieve	<p>We plan to smash a glass bottle and then lay it down with the shards 'falling' down the frame of the shot. We also plan to use petals from some pink/red flowers and scatter them around the shards of glass.</p> <p>Additionally we plan to shoot the bottle before its broken being held from underneath. A flower will be inside the bottle floating on water. We later plan to edit in the girl sitting on the flower.</p> <p>For the back cover we want to make use of the shards of glass which we will shoot on a black background. I think we may also use petals scattered around this.</p>	
Props	What?	Who's responsible?
