BY JEREMY LOCKLIN

NATE LE MESSURE

ALL THE WAY FROM ABERDEEN RIGHT UP NORTH A ROCK DUO WAS BORN, THIS DUO HAD 2 OF THE FUTURES MOST POPULAR ROCKERS OF THE MODERN WORLD, CALEB KING AND NATE LE MESSURIER. THESE 2 STARTED OUT IN A MAKESHIFT STUDIO IN NATE'S PARENTS GARAGE USING SECOND HAND INSTRUMENTS FROM THE THRIFT SHOP DOWN THE ROAD. AT FIRST THEIR SONG WEREN'T GETTING ANY NEWS OR RECOGNITION UNTIL THE RELEASE OF THEIR FIRST ALBUM IN 2009 WHEN THEY WERE BOTH JUST 16 CALLED "DRUMS AND DAGGERS".

Months after their first album the separated due to fights on what their next move should be. here's some comments from Nate himself from an interview about this issue way back when. "I wanted to wait a few more months before thinking of buying a studio but Caleb was adamant that we increase the quality of our music as soon as, this argument went on for a week or so until he grab his stuff and straight up left without a word, he took half the money and bought a studio, I didn't hear from him until I made my first few million dollars" he also spoke about how surprised he was when he saw himself rising up the rock music charts and was proud to see himself go from a garage to a million dollar studio.

In his future he will try to keep his music going as long as he can to keep his

Fans happy and rocking and is hoping that very soon he will have a few live concerts and tours planned, he wants his music to be a legacy that will be known to all the generations after him.

In conclusion his life is the embodiment of the phrase "Rags to Riches" from his parents garage to a multi million dollar penthouse and studio, from a broken duo to a hit singer in just a few years and from being unknown to everybody knowing of him, Nate will keep working for as long as he can to become the top singer, he will have his falls but in the end his goal is the top and that is where he is going.

Are you planning on doing another tour?

Yes I am planning on doing another tour later on in the year around some of the famous cities in Europe such as Paris, Berlin, Madrid, England, Budapest, Hamberg, Viena, Helsinki, Regra, Rome, Baltons, Sarejevo but I wont discuss exactly when the tour will be.

Do you still live in your parents garage?

Well actually I kinda do, whenever Im over in Scotland I always go and stay at my parents house instead of a fancy hotel only because I dont like hotels, Im usually there for a week or so because Im quite busy and everytime I look I still see my old bed and posters at the back of the garage.
