

How Jessie Page rose to fame

‘Why did you want to be a singer?’

‘I have always loved music and everything that comes with it. I started singing in the shower and from then it just grew really. I just knew I had to be known by others.’

‘Did anyone in particular inspire you?’

‘I have loved Micheal Jackson from such a young age. He’s how I was introduced to R&B actually, there was not one song I didn’t like. I liked other genres too of course, but that’s when I fell in love with R&B’

‘How are you feeling about your new fame? And how did it come about?’

‘I absolutely adore it! It’s all so new and slightly scary, but I wouldn’t change it for the world. It all started when my youtube videos of me singing my songs got some recognition. Then I made some social media accounts for my music and they grew so fast!’

What’s your favourite song on your album ‘Violet?’

‘That’s really tough because I am so proud of every single one, but most likely ‘It’s you’. A special person who I won’t name to save them from total embarrassment inspired

inspired it entirely.’

‘Do you find it difficult to write songs?’

‘Well it depends on the song to be completely honest. Sometimes they just come to me and I can write them within an hour, other times it takes weeks. I don’t mind though, I’d rather take my time and be super happy with the final result because I’m just so passionate about my songs.’

‘Do you plan on writing another album?’

‘Oh 100%, I’m just not too sure when yet. I already have some ideas brewing, but of course this is a lot to take in so I’d like to get used to everything and find my place in the music industry first.’

‘Are you excited for your first gig?’

‘I can’t explain how much I am looking forward to it! I just want it to be perfect for everyone that comes to support me. It really does mean a lot to me so I want people to enjoy it as much as I hope to. I know it is a small thing for many other singers, but I think it brings a lot of opportunities for new artists.’

‘Do you have a lot of followers?’

‘I would like to say so, I have around 200 thousand right now, which is just crazy to me and I’m so grateful!’

‘What do you like to do when you’re not writing?’

‘I love meeting up with my friends and just hanging out, also spending time with family is so important to me. Shopping is my guilty pleasure, and baking also takes up a lot of my time.’

‘What are your plans for the future Jessie?’

‘Well, if all goes well I’d like to gain some more recognition, release some more albums and go on tour eventually, crazy I know! It would also be my absolute dream to collab with Frank Ocean. He’s my favourite modern R&B star, and his music has had an insane impact on my life.’
