

Meeting the

“WE WERE HIGH SCHOOL CRUSHES TURNED EDM LOVERS”

Mystery Mr STAR!

In this month’s issue of Electra we will find out from Kora Star and Usher Aika on their newly confirmed relationship. After months of rumours swirling around the press and paparazzi photos snapped of the two of them hanging out together, Kora finally confirmed their whirlwind romance with a post of the two of them locking lips on her instagram page.

Kora star who recently won a grammy for her EDM accomplishments met Usher Aika, David Guetta’s son, also an up and coming EDM Dj at high school in Calabasas where they immediately hit it off and dated briefly. According to Kora, “we always had a spark but the timing was never right”. With Kora’s career picking up and Usher Aika wanting to focus on his studies their relationship quickly burned out. Usher continued to work hard and began attending Berkely Collge in which he graduated with a degree in music. Afterwards he also decided to go down the route of EDM. However, a chance meeting at a nightclub in Los Angeles is what brought them back together and had them reminiscing on their past.

Now they are renting out a place together in the heart of Hollywood Hills and loving life. For any heart of Hollywood Hills and loving life. For any normal couple quarantine is very difficult but they seem to be flourishing. Usher stated, “it was a struggle to adjust to quarantine together at first, but it has definitely brought us closer”. According to Kora their favourite parts have been their daily hikes, binging on Pretty Little Liars and chilling in the hot tub. Usher also gifted her with her dream pooch, a pomeranian who Kora called Sparkles. Kora stated, “he just knows me so well; we connect on so many things, like my views on feminism, the Black Lives

Matter movement and our liberal perspectives, he inspires me to be the best version of myself everyday”. Many people voiced their disapproval when they first got together because of Kora’s renowned drug and party lifestyle, but it definitely seems as though Usher has calmed her down. In fact they seem almost perfect together.

In Electra’s opinion we believe that Kora and Usher will go very far. As a matter of fact we can even see marriage in the future! Although they’ve only been together for six months they have such a tight knit bond which is very rare to see.

“IT WAS A STRUGGLE TO ADJUST TO QUARANTINE TOGETHER, BUT IT HAS DEFINITELY BROUGHT US CLOSER”

In conclusion we can’t wait to see where their relationship takes them and we are so excited for Kora Star and Usher Aika to continue making waves in the EDM industry. Also watch out because Kora’s new tour “Freedom” is hitting Las Vegas in May and we can’t wait to see what she brings to the table.
